Over the next couple of months hopefully the worst of Covid infection rates will be behind us and we can hope for a more normal pattern returning to everyday life. There is still a measure of confusion at the moment, as legal penalties are all but gone, whilst we are still all encouraged to protect others and ourselves, by how we interact with other people who we don't normally regularly meet each week. In these in-between times and until all national restrictions are finally lifted towards the end of March I advise people to recognise that people attending Church will have a range of levels of anxiety about mixing and some people are still more vulnerable to infection. To reflect that mixture and range we will retain the current protections up to Holy Week and then look for Spring and Eastertide to carry us over into fuller normality once again. Quite an apt strategy with the approach of Lent in the coming few weeks and its focus on the renewal and refreshment of our lives ....

(Week 100 of Covid-19 UK restrictions)

**Angelus Prayer (Especially @ 12 noon and 6pm)**

The Angel of the Lord declared unto Mary.

And she conceived by the Holy Spirit. (Hail Mary....)

Behold the handmaid of the Lord.

Be it done unto me according to thy word. (Hail Mary....)

And the Word was made Flesh. And dwelt among us. (Hail Mary....)

Pray for us, O Holy Mother of God.

That we may be made worthy of the promises of Christ.

Pour forth, we beseech Thee, O Lord, Thy grace into our hearts;

that, we to whom the Incarnation of Christ, Thy Son,

was made known by the message of an Angel,

may by His Passion and Cross, be brought to the glory of His Resurrection,

through the same Christ our Lord. Amen.

*Each of our local parish schools, All Saints Catholic High, St Joseph the Worker and St Laurence's Primary schools are due their half-term breaks these next couple of weeks. I would like to again thank our three Head Teachers and Governors, children and families for all their efforts to keep schools open, despite higher local infection rates in school age children.*

Year 4 children and their families have been especially invited to attend weekend Masses from 18th February, as part of their **family preparation** for the **LIVING-out** of the sacraments we will celebrate with them before the Summer. There will be 'catch-up' preparation meetings for any Yr5 children who missed them previously, these will be in March & April; details to follow.

*Our **HOME-CHURCH-SCHOOL** links, each support and build up the parish family, as we recognise and celebrate being part of something bigger; the visible Body of Christ; the gathered community; this is what CHURCH is really all about- we are the People of God- mainly lay people, with religious, the deacons, priests, bishops, altogether across our archdiocese of Liverpool- making up part of the world-wide family of the Church, gathered by God the Father, under His Son, the Word of God and with the Holy Spirit joined with the Pope, in prayer.*

Across England the average Covid infection rate is still high, whilst starting to fall back from the very high numbers, with 1 in 19 carrying the virus to others. **Three injections now seem to protect most people from severe illness, including from the Omicron variant. Recent research suggests the third booster prevents 75% catching the infection. However, a number of those who do get infected are re-infections, still need to isolate and potentially have long covid symptoms and health consequences.** Other variants will still develop. At this late stage, with infection rates still high people don't want to risk even long covid after a mild infection. For some, the demands for A&E and beds delay ambulances, clinics & operations. Larger crowds in-doors are still riskier. Public venue owners still legally need to operate safely.

There still needs to be some **caution** shown for the on-going risks; all can be infected, some are still vulnerable and particularly those not yet fully vaccinated, the risks of long-covid and new variants developing—with still large numbers of new cases each day creating a risk of residual sources of illness and hospitalisation through the rest of the Winter and into Spring. Knowsley over-12s are currently 71% 2-jabs vaccinated, Liverpool City 65% 2-jabs vaccinated; both these areas are below the national average of 84% for 2-jabs. We still have high rates of infection in Knowsley and with significant numbers of people still not yet vaccinated and boosted, there remains a risk of long-covid even with mild symptoms from infection, and for reinfection to even vaccinated people from those who are currently carrying the virus to those they mix with. With this being the new reality of living-with Covid, **we still need to act with some caution when we come to church**; this will also minimise 'track and trace' still instructing people to isolate and test or testing positive and isolating. As Knowsley covid rates are high, you see adjusted seating capacity in Church to fit people in, whilst still allowing good spacing out of the congregation. **PLEASE KEEP SPACED OUT, WITH A TWO BENCH GAP & SPREAD OUT BETWEEN HOUSEHOLD GROUPS.** In these unusual times, the Church building is still cautiously open : Masses, lighting of candles, silent prayer in benches before the Blessed Sacrament.

NOW it is still the time to continue to be **cautious** in Church,  
Especially with people you don't normally mix with  
recognising those who are more vulnerable.

FACE, SPACE, AND HANDS

AND good ventilation if meeting inside, is still advised.

Staying alert, ISOLATING if have symptoms, or 'Track & Trace' instruct you, to break the chains to other people and protect the NHS and save lives.

When parish life returns to something more like 'normal', it will be important for everyone to reflect upon what we have all learnt from this thankfully rare event of a worldwide pandemic infection. For some people and families, it has been worse than for others, but we have all been affected by two years of disruption and limits to our normal daily activities. It has probably also reminded us all about what are the most important aspects of our lives that we treasure most and have found most supportive. We may also have experienced gaps and things that were lacking if we had only all known before what more we could have all done or put into place. Whatever the new normal maybe it won't in fact go back to how things were before, because we have been changed by these times. Positive differences come from learning from necessary changes that may suggest new ways could be better ways. **FR SEAN**
